Systems Architect (DevSecOps SRE) at McKinsey&Co

2019-

Averted production disasters by taking a **deep dive into Docker Registry**, coded scripts to pare back a 12TB database, upgraded OS and utilities to latest versions, installed regular scans for dependency vulnerabilities (using JFrog XRay, Trivy, Anchore, Black Duck). Introduced use of vulnerability scans and **Makefiles** in CI/CD pipelines building Java, Python, PHP, Ruby, Go. Automated upgrade of infrastructure pipelines to include metrics into ElasticStack, Prometheus, Nagios, and Splunk. Designed custom self-serve portals through Okta security and APIs of Enterprise GitHub, Jira, Confluence Artifactory, and other SaaS developer tools. All while leading integration of US operations with India teams.

DevOps/Cloud Performance Leader at JetBloom

2014-2019

Led teams which achieved shift-left development Performance Engineering by automating **memory profiling** and metrics capture in Git-triggered jobs in **Jenkins automated cloud-based CI/CD**. Defined proactive use of monitoring and alerts from **Dynatrace**, AppDynamics, Google Analytics, Elastic (ELK) stack, **New Relic**. Designed a **perf engineering in the cloud** approach that saves money using functional and **security** test tools.

Designed roadmaps, timelines, velocity calculations, and process presentations to executives and technical audiences. Used Trello, JIRA, Skype, Zoom, and other collaboration tools. Consistently maintained SCRUM/stand-ups and KanBan as part of **SAFe Agile using CA Agile**. Initiated on-going Communities of Practice meetups among developers and operations. Collaborated in creating videos and **300+ deep-dive articles** written using mark-down for enterprise-level collaboration and training. Crafted and presented step-by-step hands-on **video-augmented** tutorials at conferences on **DevSecOps**, **Git**, **Shell scripting** (building pre-checks and verifications at each step).

Led a team to create tools and tutorials to **restore/load data** using **Salesforce DX**.

Coded **SikuliX Selenium with OpenCV & Tesseract OCR**, JMeter Java, **LoadRunner C & JavaScript**, **Flood Element Typescript**. Constructed **JAM-stack websites** leveraging **APIs**. Created **DevOps** pipelines using **Ansible**, **Packer**, **Terraform**, **Docker** in **Google Compute** and EC2 clouds. Implemented **IoT** in **Amazon**, **Microsoft Azure**, **Samsung**, and other clouds. Designed and coded Python for data-handling and use of **SciPy** in an **Algorithmia (Machine Learning) API**. Designed and programmed **OAuth2** and **JavaScript** libraries.

Master Developer Advocate/Consultant at HP Software

2010-2014

Introduced **Salesforce CRM**. Led teams in China, India, and New Zealand to reduce response time 85%. Assets from the effort are now included in SAP Mobile installers. Improved responsiveness of mobile conference app by 40% by tuning JVM and logging. Led introduction of Shunra mobile network analytics -- a service that performs like Google's PageSpeed in-house -- established all aspects of evangelism, including architecture and development with vendors around the world. This includes creating **videos** and live presentations at meetups and technical deep-dives. Created environments in AWS, Skytap, and other clouds for testing, automated demos, and hands-on courses (with videos).

SRE Performance/Developer with MBO Partners

2007-2010

Led international teams to get several enterprise systems into production scalability and stability through debugging, **profiling**, and benchmarking. Implemented and evangelized Agile processes, code reviews, static code analysis, and automation. Integrated third-party APIs, SQL, Java, and .NET C# code. Reduced response time spikes and garbage collection by 62% on an app.

Prior experience

to 2007

Managed up to 35 technologists. Consulting experience with an international consultancy (KPMG). Six-sigma consultant. Obtained Top Secret clearance to design and program systems for the Stealth Fighter at Lockheed Skunk Works. Programmed apps using C, C#, Visual Basic, and declarative languages. **Product Manager** of international security product.

Education

M.S., Educational Computing, Pepperdine University
B.S., Economics, Loyola Marymount University
98 courses completed on LinuxAcademy, ACloud.guru, Coursera, EdX, Udacity, Lynda, Pluralsight, OpenSAP, **QwikLABs**. **Salesforce Trailhead Adventurer**.

U.S. Citizen. Worked in or traveled to **all 50 US states**, major Canadian provinces, Japan, Hong Kong, Australia, New Zealand, Sweden, France, Italy, Germany, Switzerland, UK, Israel.
