DevOps/Cloud Performance Evangelist at JetBloom

2014-

Achieved shift-left development Performance Engineering by automating memory profiling and metrics capture in Git-triggered jobs in Jenkins CI/CD. Defined proactive use of monitoring and alerts from Dynatrace, AppDynamics, Google Analytics, Cavisson, Elastic (ELK) stack. Designed a **perf engineering in the cloud** approach that integrates functional, performance, and **security** concerns.

Coded **Bash**, JMeter, Java JUnit, SikuliX Selenium with OpenCV & Tesseract OCR. Constructed **JAM-stack websites** leveraging **REST APIs**. Created **DevOps** pipelines using **Ansible**, **Packer**, **Terraform**, **Docker** in **Google Compute** and EC2 clouds. Implemented **IoT** in **Amazon**, **Microsoft**, **Samsung** clouds. Designed and coded Python for data-handling, and use of **SciPy** in an **Algorithmia (Machine Learning) API**. Designed and programmed **OAuth2** and **JavaScript libraries**.

Designed roadmaps, timelines, and process presentations to executives and technical audiences. Crafted and presented step-by-step hands-on **video-augmented** tutorials at conferences on **DevSecOps**, **Git**, **Bash** scripting. Wrote and evangelized Confluence articles with mark-down (from the ground up) for enterprise-level collaboration and training. Initiated on-going Communities of Practice meetings among developers and operations.

Consistently maintained SCRUM/stand-ups and KanBan as part of **SAFe Agile using CA Agile**. Used Trello, JIRA, and other tools with velocity calculations.

Master Developer Advocate/Consultant at HP Software 2010-2014

Introduced **Salesforce CRM**. Led teams in China, India, and New Zealand to reduce response time 85%. Assets from the effort are now included in SAP Mobile installers. Improved responsiveness of mobile conference app by 40% by tuning JVM and logging. For a service that performs like Google's PageSpeed in-house, established all aspects of evangelism, including architecture and development with vendors around the world. This includes creating **videos** and live presentations at meetups and technical deep-dives. Created environments in AWS, Skytap, and other clouds for testing, automated demos, and hands-on courses (with videos).

SRE Performance/Developer with MBO Partners 2007-2010

Led international teams to get several enterprise systems into production through debugging, **profiling**, and benchmarking Java in WebSphere. Implemented and evangelized Agile processes, code reviews, static code analysis, and automation. Integrated third-party APIs, SQL, Java, and .NET C# code. Reduced response time spikes and garbage collection by 62% on an app.

Prior experience to 2007

Consulting experience with an international consultancy (KPMG). Six-sigma consultant. Obtained Top Secret clearance to design and program systems for the Stealth Fighter at Lockheed Skunk Works. Programmed apps using C, C#, Visual Basic, and declarative languages. Product Manager of international security product.

Education

M.S., Educational Computing, Pepperdine University
B.S., Economics, Loyola Marymount University
98 courses completed on LinuxAcademy, ACloud.guru, Coursera, EdX, Udacity, Lynda, Pluralsight, OpenSAP, **QwikLABs**. **Salesforce Trailhead Adventurer**.

U.S. Citizen. Worked in or traveled to **all 50 US states**, major Canadian provinces, Japan, Hong Kong, Australia, New Zealand, Sweden, France, Italy, Germany, Switzerland, UK, Israel.
